Past performance is not indicative of future results. Investment Advisory fees are described in Part 2A of LMC's Form ADV. Gross performance returns presented above are net of transaction costs and include the reinvestment of dividends and other earnings but do not reflect the deduction of investment management fees which would reduce returns. Net returns are calculated by applying the investment management fee schedule noted in the composite disclosure to the gross returns of accounts included in the composite. For information regarding the impact of investment management fees on performance, please refer to the composite disclosure shown below. Shown as supplemental information only and complements the Emerging Markets Small Cap composite disclosure attached.

¹ Benchmark returns have been obtained from an independent source and have not been examined by independent accountants.

² Not statistically significant due to insufficient number of accounts in the composite for the entire year.

³ The three-year annualized standard deviation is not presented from December 31, 2014 through December 31, 2015 because the composite did not have 36 monthly returns in that time period.

Emerging Markets Small Cap Composite consists of accounts managed in the Emerging Markets Small Cap strategy ("EMS"). EMS seeks to achieve long-term capital appreciation through investments in emerging market small cap equity securities with market capitalizations that generally fall within the range of capitalizations of the MSCI Emerging Markets Small Cap Index. The MSCI Emerging Markets Small Cap Index (net) calculates dividend reinvestment net of taxes from a U.S. perspective, which is similar to how the portfolios in the composite reinvest current income. For comparison purposes, the composite is measured against MSCI Emerging Markets Index (net). The composite was created in April 2014.

Royal Bank of Canada ("RBC") became LMC's indirect majority owner in November 2015 when RBC acquired City National Corporation ("CNC"). Effective January 1, 2015, Lee Munder Capital Group, LLC is known as LMC Investments, LLC ("LMC"), an investment adviser registered with the Securities and Exchange Commission. In July 2009, the firm was reorganized as an affiliate of CNC and took the name of Lee Munder Capital Group, LLC, prior to which it was known as Lee Munder Investments Ltd. ("LMIL"), which itself was an investment adviser registered with the Securities and Exchange Commission. The firm maintains a complete list and description of composites, which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Account performance is calculated on a total return basis including income, realized and unrealized gains and losses, and net of foreign withholding taxes. Composite performance is presented gross and net of management fees. Net returns are calculated by applying the investment management fee schedule noted below to the gross returns of the accounts included in the composite. The annual composite dispersion presented is an asset weighted standard deviation calculated for the accounts in the composite the entire year. The U.S. Dollar is the currency used to express performance. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

The investment management fee schedule is 1.00% on all assets, prior to January 1, 2019 net returns are calculated using the prior fee of 1.25% on all assets. Actual investment advisory fees incurred by clients may vary.

LMC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LMC has been independently verified for the periods October 1, 2000 through December 31, 2018. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Emerging Markets Small Cap Composite has been examined for the periods January 1, 2014 through December 31, 2018. The verification and performance examination reports are available upon request. Past performance is not indicative of future results.
